

Product no **AS21 4677****GST-tag (mouse, monoclonal)****Product information**

Immunogen	GST (glutathione S-transferase) recombinant protein
Host	Mouse
Clonality	Monoclonal
Subclass/isotype	IgG1a
Purity	Affinity purified in PBS pH 7.4. Contains 0.02 % sodium azide. Contains 50 % glycerol.
Format	Liquid
Quantity	50 µg
Storage	Store at -20 °C for up to 3 years. Make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Application information**Recommended dilution** | 1: 500 - 1: 5000 (WB)**Expected | apparent MW** | Depends upon MW of a fusion protein**Additional information** | This antibody is recognizing native and denatured forms of GST**Selected references** | To be added when available, antibody released in October 2021.
