Product no AS21 4620

c-Myc tag (mouse monoclonal) (clone 9E10)

Product information

Immunogen Conjugated synthetic peptide: AEEQKLISEEDLL derived from the C-terminal region of human c-Myc. UniProt: P01106

Host Mouse

Clonality Monoclonal

Subclass/isotype | IgG1

Purity Immunoglobulin purified on Protein A.

Format Liquid at 1 mg/ml.

Quantity 0,1 mg

Storage Store at 2-8 °C. Do not freeze. Do not use after expiration date stamped on the label. Please remember to spin the

tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the

tube

Additional information The antibody 9E10 can be used to detect the c-Myc tag

Application information

Recommended dilution 5-10 μg/ml (IHC) paraffin, 1-5 μg/ml (IP), 1-4 μg/ml (Flowcyt), 0,5-2 μg/ml (WB)

Confirmed reactivity c-Myc tagged fusion proteins

Additional information | Immunohistochemistry (paraffin sections): positive control tissue: perfused brain sections, liver, spleen.

Immunoprecipitation note: this antibody will not immunoprecipitate native c-Myc protein.

Flow cytometry note: Intracellular or extracellular staining, depends upon particular expression.

Selected references To be added when available, antibody released in October 2021.

Flow cytometry experiment: detection of transfected LST-1-c-Myc in HEK-293 cells (red) compared with nontransfected HEK-293 cells (black) using mouse monoclonal anti-c-Myc (clone 9E10).
