Product no AS16 4043

ClpP3 | ATP-dependent Clp protease proteolytic subunit 3 (cyanobacterial)

Product information

Immunogen KLH-conjugated peptide derived from ClpP3 of Synechococcus sp. strain PCC 7942, UniProt: Q9L4P3

Host Rabbit

Clonality Polyclonal

Purity Serum

Format Lyophilized

Quantity 50 μl

Reconstitution For reconstitution add 50 μl of sterile water

Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to

the cap or sides of the tube.

Additional information This antibody does not cross react with other ClpP isoforms

Application information

Recommended dilution 1:2000 (WB)

Expected | apparent 22 | 21 kDa

Confirmed reactivity Synechococcus sp. strain PCC 7942

Predicted reactivity Arthrospira platensis C1, Crocosphaera watsonii WH 0005, Cyanothece sp. (strain PCC 7822), Leptolyngbya sp. PCC

7375, Lyngbya sp. strain PCC 8106, Microcystis aeruginosa PCC 9806, Pleurocapsa sp. PCC 7327, Prochlorococcus marinus str. MIT 1327, Prochlorothrix hollandica PCC 9006, Synechocystis sp. strain PCC 6803, Trichodesmium

erythraeum strain IMS101 Species of your interest not listed? Contact us

Not reactive in No confirmed exceptions from predicted reactivity are currently known

Additional information For western blot detection image refer to the article below
