Product no AS10 705

P-Tyr | Phosphotyrosine (clone G104)

Product information

Immunogen Phosphotyrosine, alanine and glyceine in a 1:1:1 ratio polymerized in the presence of keyhole limpet hemocyanin KLH with 1-ethyl-3-(3'-dimentrylaminopropyl) carbodiimide

Host Mouse

Clonality Monoclonal

Subclass/isotype IgG1

Purity Total IgG.

Format Liquid

Quantity 100 μg

Storage

Store at -20°C for one year; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Additional information Protein G purified IgG1 in PBS, pH 7,4 with 0,09 % sodium azide and 50 % glycerol at concentration 1 mg/ml

Application information

Recommended dilution 1:1000 (WB)

Confirmed reactivity Antibody reacts with phosphotyrosine and detects the presence of phosphotyrosine in proteins of both unstimulated

and stimulated cell lysated, Does not cross react with phosphoserine or phosphothreonine

Not reactive in No confirmed exceptions from predicted reactivity are currently known

1 µg/ml of this antibody is sufficient for detection of phosphorylated tyrosine residues in 10 µg of rat tissue lysate by Additional information

colorimetric immunoblot analysis
